The Quality Behind Yours. Since 1966

A Kiwi Family Business Story

Our story began in an upstairs room on Queen St, Auckland in 1966, with the manufacturing of children’s clothing. You had to know your backstitch from your bias binding in those days. There were no fancy machines to help and the focus was on crafting clothing with the best materials we could find.

A couple of decades later we shifted south to Invercargill, finding ourselves a bigger home with more room to spread out. But our focus never shifted and remained on workmanship and using the best materials. That’s still the case today, and even though the next generation runs the show, old attitudes really do die hard. In a world of fast-fashion, we still craft clothing that lasts a lifetime.

The secret to being a family business that’s fast approaching its 60th birthday really isn’t much of a secret. We simply try harder. Like making the cut-off time 4pm for same day dispatch, providing easy access to samples and an ordering system that’s super easy to use. Indeed, everything we do is designed to make life easier for customers.

This includes making garments that are easy to brand. Indeed, over the next few pages you’ll see your brand is missing. What we’re doing is presenting the quality behind yours and the garments are waiting for your brand logo, team crest or motif. We’ve got everything ready for you, using fabrics that take prints well and construction techniques to make the clothing easy to embellish.

What’s needed is your brand and that’s where the real story is. It’s not about our history, it’s about your future.

The World Shouldn't Know We're Here

We don't need to leave our mark

The only thing we want to leave is a lasting impression on you. Otherwise, we'd prefer it if the world never knew we existed and we had zero impact on the environment. We know that's pretty idealistic but we don't see any other way.

From the very beginning we work to make sure Cloke is positive for people and the planet. All of our factories adhere to a code of conduct. There is no forced labour or child labour, no discrimination, and fair compensation is paid to workers who enjoy a safe working environment.

We're increasingly using recycled materials in our garments and we are transitioning to 100% recycled polyester use where possible. For example, we developed RE-TEX™ - our own trademarked material consisting of 100% recycled polyester, which is now used in all Cloke Microfleeces and the new Monowai Fleece Tee (see page 29). Choosing fleeces made with Cloke RE-TEX™ over non-recycled options provides a 30% reduction in CO2 emissions during the manufacturing process and keeps bottles away from landfill or the ocean.

Other garments made with blends now include recycled fabrics, such as our softshell jackets, which are moving to a 96% recycled polyester blend.

We use the below icons in the product pages to better define the sustainability efforts of each product. Please be sure to look out for them.

Lifetime Guarantee

Every Cloke is covered by a Lifetime Guarantee against manufacturing defects in materials and workmanship for the lifetime of the product. If your Cloke fails due to a manufacturing defect we will repair it without charge, or replace it, at our discretion.

This warranty does not cover damage caused by accident, improper care, negligence, normal wear and tear, or the natural breakdown of colours and materials over extended time and use.

52% of all Cloke styles contain recycled fibres.

99% of products arrive by ocean freight, saving 400g of CO2 per kilometer per metric ton.

100% Natural Cartons. Cardboard boxes that are not repurposed from elsewhere (we re-use everything we can) are free from toxic organochlorine byproducts.

100% of our courier bags are made from 90% recycled material and are reusable.

100% of the warehouse lighting at Cloke is from energy efficient LEDs.

HALF ZIP TOP**
Pg 30

GRS Certification

The Global Recycling Standard (GRS) sets criteria for third-party certification of recycled materials, adding social and environmental requirements related to processing and chemical use.

The 'chain of custody' that is central to these certifications give us the ability to trace recycled input, for each batch, right back to the source. This is important because raw materials travel through multiple stages and entities in the process of being spun, dyed, knit, cut, and sewn. The chain of custody ensures that what goes in, comes out.

The recycled fibres used in our garments are verified to meet the ISO definition of 'recycled', with both pre-consumer and post-consumer material accepted.

We became GRS certified in May 2023, part of our drive for greater sustainability and transparency.

Mem-BAR™ Reaches New Levels

Find the right one for you

Reaching the right levels of warmth is made easier with Cloke Mem-BAR™, an innovative membrane layer made from a technologically advanced thermoplastic polyurethane (TPU), similar to that found in military-grade survival suits. Used as a layer inside Cloke jackets, Mem-BAR™ increases the windproof and waterproof properties of the garment, making the jackets more effective against strong, adverse weather conditions.

Reaching the right levels is also made easy with our handy warmth rating system.

Level 3: Daily Warmth (Suitable for year-round use)

Provides the wearer with the essential warmth needed to feel comfortable on a daily basis, even as the weather changes. Every product with a level 3 rating features Mem-BAR™, our trademarked technology that adds an innovative membrane layer to softshells, increasing their resistance to wind and rain greatly beyond that of a traditional softshell.

Level 4: Advanced Warmth (Suitable for cold weather use)

For colder days where more advanced protection against adverse weather is needed. Built on the solid base of Mem-BAR™ Technology, we add a mixture of features to increase the stormworthiness of level 4 products, such as synthetic down insulation, a longer body, hood and/or velcro adjustable cuffs.

Level 5: Ultimate Warmth (Suitable for use in adverse conditions)

For ultimate protection, keeping the wearer warm in the face of strong winds and plunging temperatures. These garments are designed to enable the wearer to hunker down inside them, with features such as hoods and draft stopping collars and cuffs to keep out wind-driven rain and snow, synthetic down to maintain a comfortable core temperature, and an extended body length to provide warmth down to knee height.

These Fleeces Will Fill You With Warmth

Much of our fleece range is made from Cloke RE-TEX™ recycled polyester.

This material retains all of the same properties as virgin polyester but is significantly kinder to the environment, preventing PET (plastic) bottles from going to the landfill and polluting the oceans. Choosing fleeces made with Cloke RE-TEX™ over non-recycled options provides a 30% reduction in CO2 emissions during the manufacturing process.

If that doesn't warm you enough, check out the Hauroko, which incorporates our Mem-BAR™ wind and rain-blocking barrier membrane.

Grown To Be Better

Why Merino Makes Sense

Merino is a wonderful material that is naturally kind to the environment. It's renewable, recyclable and biodegradable. Not only that, merino has unique odour absorbing properties and requires less washing, saving water and chemicals.

Merino is also naturally thermoregulating. The fibres of the wool react to your body temperature and the outside environment, keeping you warm when temperatures plummet, yet cool as temperatures rise. This makes Merino a perfect choice for uniforms and teamwear, along with outdoor enthusiasts.

Few materials in the world offer the same natural advantages of merino. Those that do are typically less durable or hideously expensive. Merino makes sense on every level.

As does Cloke Merino. It's 100% pure and sourced only from the very best Merino sheep.

The Home of Hoodies

A good place to be

Cloke Hoodies feel like home because they're so comfortable you'll never want to take them off. They feel good because of how they're made, too.

The majority of Cloke Hoodies and Cloke Sweatshirts are made from a blend of cotton (80%) and recycled polyester (20%).

Let's talk about that cotton first. Cotton is a sustainable fibre that's naturally breathable and warming. Not all cotton is created equal though. The reason ours feels so good is because of the way it's carefully processed to remove any impurities, creating a noticeably softer and smoother cotton that feels better.

Then there's the recycled polyester. Plastic bottles are chipped, melted, and spun into yarn, which is then used in your Cloke hoodie and sweatshirt. Knowing you're saving the oceans from pollution feels better, and the fabric itself feels better and is better for decorating, too.

Our blend of cotton/recycled polyester makes the most of both materials. The 100% cotton face is excellent for printing and the added polyester introduces strength and stability, helping garments keep their shape and last longer, with no pilling or shrinking.

Knowing that feels good, too.

COTTON &
RECYCLED POLY

EXPLORER ZIP HOODIE

Zippering along the adventure highway is easy with this heavyweight hoodie. Wherever you go, you're guaranteed to be warm and comfortable thanks to the seriously thick design.

Features

- Made from 450gsm super heavyweight fabric:
 - 100% cotton face is soft, anti-pill, and ensures best branding results
 - Recycled polyester is incorporated behind the face, to ensure the garment holds its shape and lasts longer
 - Overall blend is 70% cotton, 30% recycled polyester
 - Inside is brushed for extra warmth and comfort
- Lined hood gives 'body' and shape
- Pocket openings are strengthened with bar-tack stitching
- Reinforcing tape in shoulder seams
- Extended cuff and waist ribbing
- Twin needle top stitching detail
- Quality YKK zip for longevity
- No drawcord

UNPLUGGED HOODIE

We unplugged it - a hoodie without a (draw) cord. With streamlined seam stitching and a box fit, it offers a minimalist aesthetic so your artwork is even more the hero.

Features

- Made from 300gsm midweight fabric:
 - 100% cotton face is soft, anti-pill, and ensures best branding results*
 - Recycled polyester is incorporated behind the face, to ensure the garment holds its shape and lasts longer
 - Overall blend is 80% cotton, 20% recycled polyester*
 - Inside is brushed for extra warmth and comfort
- Lined hood gives 'body' and shape
- Streamlined seam stitching
- Pocket openings are strengthened with bar-tack stitching
- Reinforcing tape in shoulder seams

► ORIGIN HOODIE

ORIGIN HOODIE

This is the old school classic that started it all, that slice of ‘back in the day’ we all hanker for. So maybe it should be called Cloke Zero.

Features

- Made from 300gsm midweight fabric:
 - 100% cotton face is soft, anti-pill, and ensures best branding results*
 - Recycled polyester is incorporated behind the face, to ensure the garment holds its shape and lasts longer
 - Overall blend is 80% cotton, 20% recycled polyester*
 - Inside is brushed for extra warmth and comfort
- Lined hood gives ‘body’ and shape
- Drawstring with gun-metal tips
- Pocket openings are strengthened with bar-tack stitching
- Reinforcing tape in shoulder seams
- Twin needle top stitching detail

CLOKE

BIG AIR TANK

Made for that big air breeze. Soak up those sunrays and the sweet vitamin D as you work out or chill out. Either way you'll be comfy as in this little beauty.

Features

- Made from 100% combed ring-spun cotton (marle colours also contain viscose or polyester)
- 145gsm, superfine fabric for superior printability and handfeel
- Pre-shrunk, anti-pill
- Big armholes with raw edges
- Chunky neck binding
- Side seams for better fit and to prevent twisting

CLOKE

Gear That's Really Made For You

Customisation & Indenting Services

Customise Cloke

We get it. Sometimes you want a blue hood lining or a pink zip pull. That's why we've made garments really easy to customise. Simply choose a level of customisation and we'll do the rest.

- 1. Contrast Hood Linings.** Selected hoodies can be customised with the colour of the hood lining replaced with contrast colour of your choice.
- 2. Contrast Drawcords.** Most hoodies come with drawcords the same colour as the hoodie. They can be easily switched out to your favourite colour or view the ColourMe hoodie for suggested colour combinations available as standard.
- 3. Zip Pulls.** All Cloke jackets with zip pulls can be customised with the zip pull colour of your choice.
- 4. Sleeve Alterations.** We can de-sleeve your Cloke at the shoulder or shorten the sleeves.

Relabelling Garments

You'll see more than a few leading sportswear and fashion brands using Cloke. Only you won't really. This is because we've ripped out the Cloke label and added the customer's own version. We can do that for you too if you like.

Indent Cloke

Indenting is where we make products specifically to order. This could be as simple as one of our regular garments but with your neck label, or as complex as totally bespoke garments – your pattern, your colour, your sizes etc.

Indent garments are made in our partner factories in Asia. The minimum order quantity and lead times can start from as little as 300 units and 3 months. However, this will vary depending on the garment type, fabrication, freight method and other factors.
